ABOUT ME

Software engineering professional with over 3 years of enterprise-level production experience, working on both the frontend and backend of products. Proven track record of writing clean code, architecting high-level features, and onboarding new team members. Looking to continue growing my career as a developer, with a desire to build efficient, modern, and resilient products to drive organizational value.

EXPERIENCE

FANDUEL GROUP

New York, NY | June 2015 — Present

SENIOR SOFTWARE ENGINEER
March 2021 — Present

- Trusted voice for streams across divisions, managing high priority feature development for the Daily Fantasy Sports vertical. Active team leader for junior engineers.
- Successfully contribute to backend code, including Python and Java repositories, leading to additional work as a full-stack engineer.
- Assist with transition of continuous integration pipelines from Jenkins to Buildkite.
- Lead design audit to standardize web components across multiple verticals.

SOFTWARE ENGINEER
March 2020 — March 2021

- Expanded unit and integration testing using Jest, Enzyme, and Cypress libraries.
- Worked as sole web developer on feature to add videos to player cards over three months, culminating in successful feature launch with no production bugs.
- Integral part of Upcoming page replatform, concluding in March 2020 release.
- Mentor new hires, including assisting with codebase acclimation and onboarding.

JUNIOR SOFTWARE ENGINEER
Oct 2018 — March 2020

- Created, developed, and tested new front-end features as part of long term roadmap.
- Updated and maintained two primary codebases in React and Angular.
- Completed revamp of Live Scoring experience, including building new React components, testing new page in Cypress, and eventual production release.
- Worked with external teams on identifying user-requested features.

EMAIL MKTG ASSOCIATE
Feb 2016 — Oct 2018

- Oversaw execution of outgoing campaigns, reaching upwards of 2 million users per day.
- Overhauled onboarding program and upgraded email template code and design.

CUSTOMER SUPPORT
June 2015 — June 2016

- Answered incoming user questions, concerns, and issues in a timely manner.
- Maintained a top-10 ranking in volume and satisfaction rating.
